WASHINGTON, D. C., OCTOBER 2, 1914.

NUMBER 1

## PROF. FRASER NEW DEAN OF LAW SCHOOL

Three New Men Added To The Faculty Will Increase The Courses Offered.

### THE SEMI-CENTENNIAL YEAR

Prof. Everett Fraser was elected dean to succeed Dean Gregory who found it necessary to give up active educational work.

Dean Fraser has been a member of the faculty for four years and is well known to the student body. He is a graduate of Dalhousie University and of the Harvard Law School. Dean Fraser has always taken an active interest in student affairs and was largely instrumental in the organization of the Legal Aid Society and is its faculty adviser. He was also chairman of the committee in charge of the very successful Law School Banquet last year.

DEAN EVERETT FRASER

Dean Fraser in addition to his administrative work will continue to teach his courses in real property and constitutional law.

Three new members, Assistant Professors Archibald King, J. Lewis Parks, and E. O. Schrieber, Jr. have been added to the faculty and will all give their entire time to law teaching.

Prof. King is a graduate of Harvard College with the A. M. degree and is also a graduate of the Harvard Law School. He is a Washington man having taken his preparatory work at the Friends School in this city. He has been associated with the firm of King and King in this city and has for four years been a member of the firm. He will teach the subjects of Torts, Bills and Notes, and Suretyship.

Prof. Parks comes from New York city where he graduated from Columbia with both collegiate and law degrees. He has recently been engaged in the practice of law in New York, having been mainly engaged in corporation practice. He will teach the subjects of Corporations, Municipal Corporations, Domestic Relations, Public Service Companies and Mortgages.

Prof. Schrieber is a George Washington man, having graduated from both Columbian College and the Law School. He came from the Central High School as holder of the Kendall Scholarship. While in college he was winner of the Davis Prize Speaking and he has twice been one of the Commencement orators. He also is a former Editor-in-Chief of the UNIV-

(Continued on page four.)

## FRESHMAN LUNCHEON

OCTOBER 3

In accordance with a time-honored custom the upper-class girls will welcome the new women students of the University with a luncheon in the Assembly Hall of the Arts and Sciences Department. In previous years this event has occurred on the day following the opening of college amid much confusion and uncertainty. This year the committee in charge, desiring more time for wider publicity and preparations has set the date for Saturday, October 3, at 12.30.

The upper-class girls extend to every woman student in the University, and especially to all freshmen, an invitation to be present and get acquainted. Miss Anna Craton will be toastmistress and the committee in charge consists of Miss Louise Worcester, chairman, Miss Ruth Ayler and Miss Margaret Wilson.

## POSITIONS ON HATCHET STAFF NOW OPEN

Men Wanted For Both Editorial And Business Work.

Both the editorial and business staffs of the HATCHET are as yet far from completed. There are many opportunities for persons interested in journalistic work to secure experience and gain positions on the staff. Persons interested in editorial work should get in touch with one of the board of editors at once while those interested in the business end should communicate with the business manager.

The editorial staff of this year will consist of a limited number of associate editors elected early in the year from among those who have had past experience on the paper, a departmental editor for each department, and a further list of reporters. All who apply and turn in some work will be placed on the list of reporters but names will be dropped from the list if work is not continued.

On March 15th there will be elected from the list of department editors and reporters not more than six associate editors. At the end of the year the names of all of the associate editors with a statement of the work done by each will be represented by the present Board of Editors to the Board of Managers of the corporation and this latter board will elect the editors for the following year.

Similarly all who apply and do some work will be placed on the list of business agents and on March 15th not more than three assistant business managers will be elected whose names will be presented to the Board of Managers at the end of the year with a statement of the work done by each.

There is now absolutely an open field for all candidates who enter promptly. Election to next year's board depends entirely on the quantity and quality of the work done and ability displayed and an early start will be a big advantage.

All candidates who do work of such a character as to earn for them elections as associate editors or assistant business managers will be given a suitable fob medal in recognition of

(Continued on page four.)

## THE HATCHET TO BE ISSUED WEEKLY BY BOARD OF EDITORS

The Corporation Now Has a Faculty And Alumni Board Of Managers In Full Control.

### NO CHANGE MADE IN THE PRICE

The UNIVERSITY HATCHET will be published weekly this year and will be out every Friday except during University holidays. It is believed that by this return to the old weekly publication the paper will be of more than double value in that its news will always be fresh.

The UNIVERSITY HATCHET is the official student publication of the University, recognized by the University officials as such and contains official announcements for both faculty and students.

There will be no increase in price in spite of the double frequency of issue. The subscription rate will be \$1.00 if paid in advance or before December first, just as it was last year. The price if paid later will be \$1.50. The difference in price is made to encourage early payment. As most of the advertisements are paid for later in the year the subscription receipts are needed for early expenses.

The size of the paper has been changed as you will note and we now have five columns which are longer than the four used last year. The number of pages may vary from four to eight depending on the amount of news and advertisements, but four pages only are guaranteed, any extra being in the nature of a gift. Two of the present pages contain more space than three of the old size.

The paper this year is under the editorial direction of a board composed of three men, which is a departure from the practice of previous years. These men are Messrs. Harsch, Hodgkins and Ramsey.

Erwin Harsch is a senior in the College of Engineering. He has been prominent the past year as Secretary of the Athletic Association and was Assistant Manager of the basketball team two years ago. He was an associate editor of the HATCHET last year and is a member of the Engineering Society, Skull and Circle Class Society and of the Sigma Phi Epsilon Fraternity.

Howard W. Hodgkins, now a junior in the Law Department, graduated in engineering in 1913 and has been Manager of the Track Team, Editor-in-chief of the 1911 Cherry Tree, President of the Athletic Association and for the past two years an Associate editor of the HATCHET. He is a member of the Pyramid Honor Society and of the Theta Delta Chi Fraternity.

Herbert P. Ramsey is a junior in Columbian College and was last year editor-in-chief of the 1914 Cherry Tree. He has also been president of the University Y. M. C. A. and is a member of the Glee Club and of the Chemical Society.

These men have all had experience in the journalistic line. They are in three of the largest colleges and two belong to different fraternities while the third is a non-fraternity man, thus

(Continued on page four.)

## CLASS EDITORS.

All classes in organizing are particularly urged to elect Class Editors, or some officer whose duty it shall be to supply the HATCHET with news of all class events and with personal notes of the doings of members of the class. An efficient man should be selected and the class should hold him responsible for its representation in the HATCHET.

Class presidents are urged to see that such an officer is elected and that the class secretary furnishes the HATCHET with his name and address. On his work will largely depend what the University as a whole knows about your class. Don't complain to the HATCHET for failure to publish notes of your class, but see your class Editor. If he sends it in it will be published.

## FACULTY CHANGES IN ARTS AND SCIENCES

Dean Hodgkins Not to Teach Physics. —Starr Resigns From Faculty.

A number of faculty changes have been made in the Department of Arts and Sciences and several new courses will be offered.

Dr. Mott-Smith has been appointed Assistant Professor of Physics and will give the courses in Physics heretofore given by Dean Hodgkins, and will also have charge of the Physics Laboratory work. Dr. Smith is a graduate of the Massachusetts Institute of Technology receiving the degree of B. S. in E. E. there in 1900. He has also pursued extended studies elsewhere, and is a holder of the Ph. D. degree from Halle, Germany. He has a teaching experience of some years, coming here after five years of such work at Colby College, Maine.

Dean Hodgkins, relieved of his teaching Physics, aside from his administrative duties will continue his teaching in Mathematics and will add an extra course in advanced work in the Theory of Equations.

Mr. N. W. Dougherty has been appointed Assistant Professor of Civil Engineering and will carry much of the work formerly given by Professor F. C. Starr, whose outside practice forced him to resign from the faculty. Professor Dougherty graduated from the University of Tennessee with the degree of B. S. in C. E., with honors, and is the holder of C. E. and M. C. E. degrees from Cornell, where he has been a member of the faculty since 1910. Professor Dougherty had some actual experience in railroad work before taking up teaching. He is an athlete and while at the University of Tennessee was the captain of three Varsity teams.

Another newcomer in the faculty is Mr. Leonard S. Doten who will give work in Hydraulic and Sanitary Engineering. Mr. Doten is a hydraulic and sanitary expert with the War Department and his work is widely known. He has taken advanced courses in his specialty at Harvard.

Professor Mechlin has resigned from the undergraduate faculty, owing to the pressure of the outside engineering practice, but will continue to give work with Faculty of Graduate Studies. He will give courses in Advanced Steel Design and Reinforced Concrete.

Professor Dunstan will give a course for graduates in Water Power, and Dr. Mott-Smith will give an advanced course in Heat.

Meade Bolton, who has taken some of his work here and some at the Massachusetts Institute of Technology, has been appointed an instructor in Architecture and will give some work in that subject.

(Continued on page four.)

## PROF. McNEMAR ANNOUNCES ATHLETIC PLANS FOR YEAR

Athletic Association Tickets Soon To Go On Sale.—Graduates To Supervise Work.

### TRACK MEET WILL BE HELD

Following up his successful beginning of last year, Professor McNemar, member of the faculty in charge of athletics, has initiated plans for the University sport year.

In each branch of athletics the manager is to be a student assisted by an experienced alumnus. The entire system will be under the supervision of Professor McNemar and will be operated by the officers of the Athletic Association.

All funds from whatever source will be in charge of a financial secretary whose accounts will be subjected to constant examination by the University auditor.

In speaking of the work Professor McNemar said: "Our aim is to make athletics here distinctly a student affair. With the exception of the faculty advisor and the auditor, everyone connected with the athletics system will be a student or an ex-student. Season tickets will be sold at two dollars each which will make the holder a member of the Athletic Association with voting power and will admit him to six basketball games and at a special rate to the track meet. There will be at least six basketball games. If more games are held, members of the Athletic Association will be admitted for twenty-five cents and others for thirty-five cents.

"The track meet will be held on the second or third Saturday of February. Members of the Association will be admitted at reduced rates on their season tickets to a block of seats which will be reserved, to the number of season tickets sold, in an advantageous position from which a good view may be had. If a member should desire to move to a more expensive seat, fifty cents will be clipped from the price of this seat."

L. A. Maxson, the University's mile runner in 1913, states that the outlook for an excellent two-mile relay team is exceedingly bright.

## PROSPECTS BRIGHT IN GIRLS' ATHLETICS.

Definite plans have not yet been made for the basketball and tennis seasons of the Girls' Athletic Association. The Association voted last spring to unite with the men in the formation and support of a general Athletic Association under the guidance of Professor McNemar. However, there is every reason to expect that the Epiphany Church gymnasium will be used as before for practice. The last basketball season was a successful one and there is every prospect for a better season in 1914-15. A great many of the Freshman girls have played basketball in the local high-schools and will make a strong addition to the squad. The officers of the Girls' Athletic Association who were elected last spring are: Flora Hull, President; Anna Washington Craton, Manager; Theodosia Darling Seibold, Captain.

### INCREASE IN PHARMACY.

The registration in the Department of Pharmacy is greatly in excess of the expectations of the faculty. Dr. Kalusowski, the Dean of the school of Pharmacy, is very much gratified at the prospect.

When you wish to learn Shorthand, Typewriting, Book-keeping, or prepare for Civil Service, the best place is at

## THE NINETY-FOURTH YEAR.

The University opened its doors on Wednesday for its ninety-fourth year and there is every reason to believe that this year will surpass all others.

Last year there was the largest registration in the history of the institution and from advance registration in the different departments it appears that last year's figures will be materially increased this year. The faculty in several of the departments has been increased to properly take care of the enlarged student body.

Last spring the athletic debt was finally eliminated after four years of campaigning and athletics will start out this year with a clean slate and under careful and efficient faculty and graduate control. It is certain that we now are on the verge of a real renaissance of student activities at the University.

The Hatchet has taken the initiative and materially increased the size of page and doubled the frequency of issue. It will be a live sheet and its news will be fresh and up to the minute. It will do the utmost possible to foster all other branches of student activities.

In order that all branches of such activity including the Athletic Association and Teams, the various debating and literary societies, the Chemical, Engineering and Veterinary Medical Societies, the Glee Club, Dramatic Society, the men's and the women's honor societies and many other student interests may attain their highest efficiency it is necessary that the students must know of them and what they are doing. The only way to keep in touch with them is through the Hatchet.

In spite of the doubling of the frequency of issue the Hatchet Corporation has not increased the subscription price. A dollar bill is still good for a year. It was felt that the most important thing was to have every student subscribe by keeping the price well within the reach of all.

It is the duty of every person connected with the University to subscribe to the Hatchet, thus to learn of all the other student activities and to support in every possible way.

The Hatchet endeavors to represent the whole University fully and completely and the cooperation of all is earnestly requested. The Hatchet is not a one man proposition but is

officially published by a corporation and the primary object of its publication is for the betterment of the University, and it can only attain this object through the cooperation of the whole student body.

## CHARLES NOBLE

GREGORY, A. M., LL.D.

It was with much regret that the professors and students of the University learned of the resignation of Dean Gregory of the Law School. Dr. Gregory is leaving actual teaching of law to take up writing in the interests of International Law. His name has long been prominently connected with the study and advancement of International Law.

Dean Gregory will long be remembered by the students of the University as an excellent teacher of law and a man of superior administrative ability. His methodical presentation of subjects and the clearness of his exposition have commanded the respect and admiration of his students, while his strictness in requiring substantial attainments, coupled with an unfailing and charming personal concern for the students' welfare, not only during their course of study, but during subsequent experience as practitioners, has commanded and secured the admiration and affection of both students and alumni of the University.

## G. W. U. RIFLE TEAM TAKES FIFTH PLACE IN MATCH

Although George Washington's rifle team registered the score of 765, eighteen points more than any of their teams ever had before, it succeeded in landing only fifth place in the 9th Annual Intercollegiate Outdoor Rifle Championship.

Though the team's showing was not as good as expected, the spirit shown by the squad of men trying for the team was excellent. The following men responded to the call for practice: Ramsey, Burt, Naetzker, Abramson, Rice, Gill, Stoddard, Tilley, Tunstall, Thompson, Petrie, Howard, Fletcher and Kellberg. After two day's practice, all but the following were eliminated: Ramsey, Rice, Petrie, Stoddard, Tilley, Tunstall, Thompson and Fletcher. Ramsey, Rice and Petrie fought it out to decide who should be the sixth man on the team, Rice finally winning out.

After the team had finished its last practice it was found that the conditions of the match had been altered although the Club had not been notified of the change by the N. R. A. The 200 yard standing position, slow fire, had been changed to rapid fire, kneeling from standing. The only practice the team had at the new position was a half hour work out under Coach Fehr. In the match, three of the men sadly showed the lack of practice. Tunstall was high gun at 200 yards with a score of 48 out of a possible 50.

Coach Fehr and Captain Tilley deserve great credit for the showing of the team in the limited time given over to practice.

## The score:

NAME	200 yards	300 yards	500 yards	Total
R. K. Thompson	38	44	87	119
E. R. Tilley	43	45	49	137
F. D. Fletcher	39	44	44	127
W. L. Stoddard	45	46	44	135
E. C. Rice	36	39	41	116
L. J. Tunstall	48	42	41	131
	249	260	256	765

Massachusetts "Aggies" won the championship for the second consecutive year and the fourth time since the trophy has been in competition with the score of 827 out of a possible 900. The order in which the rest of the competitors finished and their scores are as follows:

U. S. Naval Academy, 826; U. of Ill., 774; Oklahoma A. and M.; George Washington University, 765; Mass. Inst. of Technology, 760; U. of Pa., 760 and Texas A. and M., 743.

The outlook for a good indoor rifle team is excellent—get busy!

## REPORT OF THE TREASURER OF THE ATHLETIC ASSOCIATION.

Although matters were in such shape that it was clear that all of the Athletic debt had been wiped out, it was not possible to publish in the HATCHET last year the exact account.

Mr. Beneman, the Treasurer of the Association cleared up the small outstanding accounts late in May and his financial report given below is dated May 26. Prof. Ruediger as chairman of the faculty committee on Student Activities handled the money necessary to pay off the back debts and therefore two items are credited to him. His able work in this connection has been much appreciated.

Sufficient funds were turned over to him to clear all outstanding accounts and the net balance of over forty dollars was turned over to Mr. Holmes, treasurer of the University for temporary safe-keeping.

The account follows:—

## RECEIPTS.

Sale of Membership tickets	\$21.00
Sale of Game tickets	1.70
From James P. Nash	56.00
Catholic University (guarantee)	10.00
Net profit of Vaudeville show (account rendered)	184.82
Net profit of theatre benefit (account rendered)	186.47
	\$459.99

## EXPENDITURES.

Stationery and supplies	\$3.15
James P. Nash (petty cash)	6.00
Phone calls	.60
To James P. Nash (basketball expenses)	15.00
To James P. Nash (Virginia guarantee)	50.00
To James P. Nash (Payment of Schlosser)	4.50
To W. C. Ruediger (Athletic debt)	175.00
To W. C. Ruediger (Athletic debt)	154.00
Printing	7.00
Additional expense of vaudeville show	1.50
To W. C. Holmes, Treasurer (Net balance)	43.24
	\$459.99

Respectfully submitted  
HARRY G. BENEMAN,  
Treasurer.

## HATCHET AGENTS WANTED.

A Chance For Students To Earn A Commission And A Fountain Pen.

In its endeavor to secure the largest possible subscription list the HATCHET needs a number of active agents in each of the departments to solicit subscriptions. Blanks and instructions will be supplied by either the editors or business manager.

A ten per cent commission will be allowed on all subscriptions and there is ample opportunity for a active man to clear several dollars quickly.

As an additional inducement a prize of a Waterman fountain pen of the winner's selection of the value of three dollars will be given to the agent turning in the most subscriptions by December first.

Here is a number of dollars and a fine pen waiting for somebody. You can get those blanks and start after subscriptions today. NOW is the time to start.

## EXPERIENCE CLOSE CALLS.

Many Students and Members of Faculty Abroad This Summer.

The students and members of the faculty who were abroad when the war started are rapidly returning. Four members of the faculty and fully a score of the students were in Europe when hostilities opened.

Dr. Nevil Monroe Hopkins, assistant professor of Chemistry, who was in Moscow at the time, has joined the French Red Cross and will not return to the University this fall. He went abroad in the employ of the Bureau of Industrial Research. From Moscow he went to Paris and there offered his services to the Red Cross.

Dr. William Cline Borden, dean of the Medical School, and Dr. Selby who has charge of the X-ray work here, were attending a surgeons' conference in Berlin when the war began. Dr. Charles Clinton Swisher, professor of History, was in Austria at the beginning of the conflict. He crossed the border and thence went into Italy. He lost all his baggage.

Joseph B. Kingsbury and H. Bassett Elgin, students in Columbian College, were in Dresden when hostilities began. They were arrested as suspicious characters and imprisoned for a day or two. Finally they managed to get to Amsterdam whence they sailed home. Mr. Elgin was offered \$1,000 for his second-class passage home but refused to consider the proposition. Titus Ulke, a student in the School of Graduate Studies, was placed under arrest in Germany, but the presentation of his passport secured his release.

Lloyd H. Van Kirk, Columbian College, was studying in Germany at the outbreak of the war. Tully Charles Garner, Columbian College, was in Rome. After much difficulty he secured passage on a steamer from Naples to New York.

Tsao-Chen Shen, School of Graduate Studies, brought back to the states a large number of young Chinese students who intend to enter American educational institutions this fall. Miss Thora M. Riley, Columbian College, was in Italy at the beginning of the war.

Among those who were abroad and have succeeded in returning are David R. Covell, Rebecca M. Ashley, Edith M. Clark, John T. Huddle, May P. Bradshaw, Maud Macfearson and Ruth Rizer.

## WOMEN'S STUDY ROOM IMPROVED.

While the students of the University have been resting from their labors Treasurer Holmes and Engineer Schatz have been busy getting things in shape for their return. Among other improvements the women students will notice agreeable changes in the room allotted to them for rest and study purposes. At the suggestion of the Sphinx Honor Society, the University appropriated enough funds to enable Mr. Schatz to build some bookcases, varnish the floor and paint the walls a pleasing shade of buff.

The Honor Society with the proceeds of a food sale has added pictures, table runners, cushions, coat-hangers and other fittings for the convenience and enjoyment of the women students. The library is placing a few reference books in the room.

This room has long been an eyecore to many of those who have had to use it and now that it has been beautified the Sphinx Honor Society hopes that every student will cooperate with the "other girl" in an effort to make this place a cheerful restful one. Suggestions as to further improvements will be gladly received from any who are interested in doing things for G. W. U.

## NEW COURSES OFFERED IN TEACHERS COLLEGE

Faculty Changes.—All Of Last Year's Class Now Teaching.

Miss Harriet Underwood, A. B., '13, has been engaged as Assistant in Psychology and in addition to continuing her work for the Master's degree will assist Professor Ruediger in supervising the course in Experimental Psychology. Miss Underwood took the course in Experimental Psychology several years ago and has spent two summers working with Dr. H. H. Goddard at Vineland, N. J., on problems in clinical psychology. She is therefore exceptionally well qualified for her new appointment.

Miss Marietta Stockard, who has been on the pedagogical faculty for two years, offers a new course this year on Story Telling and Children's Literature. This course is open not only to upper class students generally but also to those who took her work during the past two years.

Mr. Arthur Deerin Call, whose work in the course on Elementary Education made so favorable an impression last year, offers a new course this year on Ethical Principles in Education. This is a one-hour course coming on Tuesdays at 5.

Dr. Willard S. Small, who has been on the faculty of Teachers College since its inception in 1907, is this year giving the course in Secondary Education. His active and successful experience as Principal of the Eastern High School will prove a valuable asset in this course.

In the Educational Seminar, which is a two-hour course open to qualified undergraduates as well as to graduates, Professor Ruediger will this year take up the recent literature and problems in Educational Psychology. It is the aim to make the work in this course different every year.

All the members of the pedagogical faculty of last year are with us again this year and report that they have had delightful summer seasons. Dean Ruediger spent eight weeks in Hanover, N. H., where he was a member of the faculty of the Dartmouth College Summer Session, and two weeks at Denton, Md., giving instruction in a teachers' institute. His family was with him at Hanover. Dr. Small gave summer courses at Johns Hopkins University and spent the remainder of his vacation with his family in New England. Miss Stockard spent her time between teaching in the Summer Session of the University of Virginia and her home in North Carolina. Mr. Call, accompanied by his family, spent the summer in Maine. It was Mr. Call's original intention to visit Europe in the interests of the American Peace Society, but the war interfered with this visit.

The eleven graduates from Teachers College during this year 1913-1914 are located as follows: Florence Corson, High School, Germantown, Md.; Gertrude V. Browne, High School, Hyattsville, Md.; Genevieve M. Frizzell, Potomac School, City; Isabel R. Capell, Lillian E. Carpenter, M. Lucile Lawson, Cora A. Ossire, and Marietta Stockard continue in their Public School positions; Elizabeth Ferguson is on the eligible list for teaching in the Washington High Schools; Henry T. Richards continues in his position with the Civil Service Commission; and Walton C. John, while continuing as instructor in Spanish in the University, has enrolled for the degree of Master of Arts.

Nash Not To Be In Attendance This Year.

The University learns with regret that it will lose this year one of its most dependable basket-ball men. James P. Nash who has conducted himself with great energy in the school's interest in the past, has left the city to take charge of the Laboratory of Road Materials in the University of Texas, and is a road expert in the service of the State of Texas.

## WITH THE GREEKS.

On September 6 in the Dutch Room of the Ebbitt was held a very successful rally luncheon of the Lambda Chapter of Phi Sigma Kappa. John Joy Reinhart presided and speeches were made by Dr. Michael X. Sullivan, Dr. Charles Willis Needham, Clayton W. Carpenter and W. E. Henry, the last-named being a member of Nu Chapter of Lehigh University. There were a number of guests from other chapters and a good attendance of graduates and undergraduate members.

In the evening the first of a series of fall dances was held in the chapter house on S Street in honor of the luncheon guests.

Phi Chi has installed its local chapter in its new and commodious home, 1102 L Street. The house is double the size of the organization's old quarters on R Street. The first of a series of smokers will be held the evening of October 1.

The George Washington Chapter of Delta Tau Delta has moved into its new home at 1812 N Street.

At the Chi Omega Convention held in Boulder, Colorado, June 20 to 25, 1914, the George Washington Chapter was represented by Misses Louise Worster, Josephine Tomlin, Elsie Yost, Katharine Kerby, and Gertrude Hastings.

## SPHINX HOLDS INITIATION

The Sphinx Honor Society held its initiation Tuesday June 9, in the rooms of the Pi Beta Sorority. Those initiated were Miss Mabel Blanchard, Miss Anna Craton, Miss Elizabeth Weber and Miss Joanna Best. Following the initiation a banquet was held.

The Sphinx is the only woman's honor society in the University and has a such a high standard of admission and such a limited membership that election to it is a very much coveted honor. It has always been active in all things which would be for the best interests of the University and of the co-eds in particular.

## G. W. U. MAN GAINS DISTINCTION.

Supplee, Medical School '14, Wins Medical Honor.

Dr. Eugene D. Supplee of the Class of 1914 of the Medical School passed highest in the examination held in June by the Board of Medical Supervisors of the District of Columbia. His average was 98.6 while that of his nearest competitor was 94. Twenty-eight men entered the examination and two failed. Of the eight George Washington men who entered all passed the examination creditably.

## BOUND VOLUMES.

A limited number of copies of each issue are being retained and there will be on sale, for delivery at the end of the year, a small edition of bound volumes of the HATCHET.

The HATCHET is the only permanent record of all the events of the collegiate year and the only way properly to preserve it is in a bound volume.

The edition will be very limited in number and in order that the proper number of copies of each issue may be preserved, it is imperative that the subscriptions be received early. A few years from now you will find the bound volume invaluable. The subscription price will be \$2.50 and the edition will be limited to those subscribed for in advance. Send in your subscription to the Business Manager to-day.

## TO OUR FELLOW ALUMNI:

If you think of taking a Course at a Business College in Shorthand, Typewriting, Business or Civil Service, consult Mr. Frank Fuller, our Principal, who is an A. B. and Alumnus of George Washington University. He will advise you as a Fellow Alumni as to systems, methods, and courses.

Special Courses for G. W. U. Students.

THE DRILLERY, 1100 New York Avenue.

FRANK FULLER, A. B., G. W. U., Principal.

## PROF. GILL DIES SUDDENLY

Dr. Theodore N. Gill, seventy-eight years old, at one time assistant librarian of the Library of Congress and connected with this University since 1860, died shortly after noon September 25, at the home of his brother, Herbert A. Gill. Dr. Gill had been ill for only a few days. The funeral was held Monday, September 28, at Oak Hill Cemetery.

Dr. Gill was born in New York City, March 21, 1837. He received his education in that state, and, coming to Washington, became connected with the University, then known as the Columbian University, from which he later received the honorary degrees of A. M., M. D., Ph.D., and LL. D.

Dr. Gill at first held the chair of Physics at the University and later became professor of Natural History. For a long term of years he was professor of Zoology, holding this chair until 1910.

Dr. Gill was librarian of the Smithsonian Institute from 1865 to 1867. He then became assistant librarian of the Congressional Library, a position which he held until 1875, when he confined his work entirely to the University.

He was a member of the National Academy of Science, of the American Association for the Advancement of Science, of which he was president in 1899, a member of the Cosmos Club and many other societies.

Dr. Gill was unmarried and is survived by one brother.

## ARCHITECTURAL SCHOOL

Members of the George Washington Architectural Club under the direction of R. K. Galbraith have been engaged during the summer in the execution of scale drawings of the Octagon House. The Octagon House, located at the northeast corner of Eighteenth and New York Avenue, is the home of the American Institute of Architects and the drawings are to be published in connection with a history of the Octagon House compiled by the Institute.

## FACULTY REPORT WIDELY REPRINTED.

Last spring a faculty committee composed of Professors Henning and Wilbur was appointed to draw up a report on standardizing grades and credits. This report was adopted by the President's Council late last session and has since been given publicity and has attracted much favorable attention, and comment in the educational world.

The report was printed in the September issue of the "Journal of Educational Psychology" and has been reprinted in the current number of "Science." This wide publication testifies to the high character of the work of the faculty committee.

## MR. VAN VLECK MARRIED.

On the first of July, Miss Jennie Moyer, daughter of Mr. and Mrs. John A. Moyer, and Mr. William C. Van Vleck were married at Drummond, Maryland.

Mr. Van Vleck is now the Secretary of the Law Department and is a graduate of both the academic and legal departments of the University. While a student Mr. Van Vleck took a prominent part in student activities. He was active in editorial work on both the HATCHET and the Cherry Tree and took part in a number of inter-collegiate debates. He was a holder of the Kendall scholarship. He is now a member of the Board of Managers of the HATCHET corporation. Miss Moyer is also a graduate of the University, holding a degree from Columbian College.

PROMPT AND CORRECT SERVICE

## You win \$500 by writing the best Fatima ad.

We believe the College Man who smokes Fatima ought to be able to write a good Fatima ad. He knows from experience that Fatima is of satisfying excellence—that for its superlative quality it is moderately priced. He of all Fatima smokers, should be able to write of Fatima convincingly.

So we are going to pay \$500 to the student who prepares and sends to us the best original advertisement for Fatima Cigarettes before June 1, 1915.

## Any student of any college may compete for this \$500

There are no restrictions, whatever, no strings of any kind on this offer, other than this—every contestant must be a regularly enrolled student in an American College. We want a student—not a professional ad writer—to benefit from this offer.

Three prominent business men, whose names will be announced later, will act as judges.

## \$5 for every ad published \$500 for the best one submitted

The \$500 will be awarded June 1, 1915. In the meantime, some of the ads submitted will be published each month in college publications, together with the name and photograph of the writer—provided the writer will give permission for such publication.

For each ad so published we will pay the writer \$5. But, the publication of any ad must not be taken to signify that it stands any better chance to win the \$500 than the ads that are not published.

Those who try to earn this \$500 should remember that the supreme test of any advertisement is its selling power. Whether your ad consists of only ten words—or runs to a thousand—it should be interesting, truthful, convincing—it should give to the reader the buying impulse. To write such advertisements, that will pass the test of performance, the writer must believe in the product he is writing about.

Some facts that may help you

Made of Pure Tobacco. Fatima Cigarettes were first made famous by college men. The Turkish Tobacco used in Fatima Cigarettes is selected by expert native buyers stationed at Xanthi, Samos, Cavala and Smyrna. Fatima is five to one the biggest selling fifteen cent cigarette in the country. Simple, inexpensive package, but no finer tobacco is in it than in Fatima. Fatima Cigarettes are distinctively individual. They are 20 for 15c.

## DEPARTMENTAL NOTES

### COLLEGE.

Misses Hannah and Nelle Jones, Pi Beta Phi, entertained their sorority sisters at a delightful little party, Wednesday, September 16, in honor of Miss Helen Hammerly, formerly of Columbian College, whose engagement to Ensign Charles H. Ingraham, U. S. N., has been announced.

Genevieve Frizzell and Gertrude Browne, graduates of the Teachers' College last year, have entered the wage-earners ranks, the former as instructress in the Potomac School for Select Young Ladies, and the latter as teacher of English in the Hyattsville High School.

Margaret May Roper entertained a honor of Miss Ruth Lawton and Miss number of friends, August 31, in Ruth Irwin of Randolph-Macon Woman's College.

Miss Frances Prouty spent a day in Washington recently en route to Boston where she enters the New England Conservatory of Music.

Mabel Scott, Gertrude Browne and Flora Hull enjoyed a delightful canoe trip in August, paddling down the canal from point of Rocks, Maryland, to this city.

Marian Ferguson and Adeline Bradburn spent two weeks at Cornell as the guests of Professor and Mrs. A. L. Thompson, a notice of whose wedding appears in another column.

We extend our deep sympathy to Miss Marian True, Miss Mary Tyn-dall, and Mr. Ralph W. Benton, each of whom has suffered the loss of the father during the summer.

Miss Mildred Phoebus spent much of her summer motoring through New England.

John S. Bixler spent the vacation at his summer home near Carlisle, Pennsylvania.

Miss Katherine Chaves is in the University of New Mexico.

Miss Mabel Paul is studying at Goucher.

Miss Betty Schragenheim has registered at Columbia.

Miss Amelia Weaver has entered the University of Oklahoma.

M. Alvord Gore, Columbian College 1914, enters the Medical School of the Johns Hopkins University.

Miss Lisette W. Dill is now employed in the Treasurer's office in the place of Miss Wood who is filling a position in the Juvenile Court.

Among the new students at the University from out of town are Miss Lina H. Fergusson, New Mexico, from Gunston Hall, Miss Katherine Brown, Wisconsin, from Sweetbriar, and Miss Helen Miles from Wilson College. Miss Fergusson is a Freshman, Miss Brown a Sophomore, and Miss Miles a Junior.

Miss Ruth Rizer has been entertaining her friends with delightful accounts of her experiences in Europe this summer.

Francis Simpson, of last year's Freshman Class, successfully passed the entrance examinations for the United States Military Academy last June and is now representing his home state of Montana at West Point.

A house party composed in the main of Sigma Kappa girls while at Rehoboth Beach met another house party made up of the University of Delaware Chapter of Sigma Phi Epsilon. This vacation party was graced by visits from Henry A. Kruger and Erwin Harach, Engineering '15.

Miss Mabel Blanchard, Columbian College 1916, has left us to complete her course at the University of Wisconsin.

H. Burton Lowe, Columbian College 1916, has entered Dartmouth.

Miss Helen Hotchkiss, Columbian College '17, entertained Miss Theodora Seibold, of the same class, this summer at her summer home near Longnook, Massachusetts.

### MEDICAL SCHOOL.

As a result of the painting of the first floor of the Medical Building and the thorough overhauling of the anatomical laboratory, the Medical School is in a much better position than in recent years to welcome its old and new students.

Owing to the premedical college year required this year for the first time for admission to the medical school, in addition to the four year high school course, formerly required, it is expected that the registration in the freshman class will be very much smaller than in past years. Due to the fact that the graduating class of last year numbered only twenty, it is thought that the total number of students in the school will not be less than last year.

Dr. C. L. Davis enjoyed a motor trip through New England and put in a good part of the summer at the Marine Laboratory, Wood's Hole, Mass.

Dr. D. L. Borden and E. S. Green are yachting enthusiasts and sailed many a mile together on the lakes of New York State.

Drs. Eisenberg, Sherwood, Supplee and Sze, all of the class of 1914, are resident physicians at the University Hospital.

Paul S. Putzki, '15, writes of some very interesting experiences at the Pilley's Island Hospital, Newfoundland. This hospital is one of eight operated by the International Grenfell Association.

Dr. A. H. McCray, '15, has been acting as interne at Casualty Hospital.

Sidney C. Cousins, '16, has been holding the position of Assistant Superintendent at the Municipal Swimming Pools. Sterling P. Taylor, and Clarence E. Weaver have been acting as guards.

Fritz Reuter during the early part of the summer had charge of the laboratory at the Children's Hospital; he has been spending his vacation in West Virginia.

Roy T. Haskell was employed in the laboratory at Casualty Hospital during July, but gave up this position to accept the internship at the Washington Ear, Eye, Nose and Throat Hospital.

E. Clarence Rice attended the Students' Military Camp of Instruction, located at Burlington, Vt.

J. M. Huddleston has been engaged in doing laboratory work at Emergency Hospital. On the opening of the New Emergency, he will be placed in charge of all laboratory work.

W. H. Norton visited his home near Rochester, N. Y.

V. J. Stachiewicz has been employed in the laboratory of Sibley Hospital.

Gill and McDowell have been "joy-riding" between Plattsburg, N. Y., and Montreal.

Kennedy and Macon succeeded Davis and Elmore at the University Hospital as orderlies.

Simpson has been doing some work at the surgical clinic at Casualty.

Bolton summered at Washington Grove.

Miss A. E. Sellner spent a pleasant vacation in Virginia.

Soon after graduation Dr. Thomas Miller fell a victim to the wiles of Cupid. Dr. Miller has been appointed Special Instructor in Pathology.

Dr. Isabel K. Bogan has been appointed Special Instructor in Pathology and Bacteriology.

The women are gradually pushing to the front. It is understood that two have registered in the first year class and one in the third.

Dr. A. M. Jova, '14, has returned to Porto Rico for post-graduate work.

Dr. G. J. P. Barger, '14, is taking post-graduate work at Harvard.

### VETERINARY SCHOOL.

Developments indicate that this year will bring to the Veterinary School the largest enrollment in the Freshman Class that the School has seen for years. Dean Buckingham states that much of this is due to the fact that the present Congress has appropriated a much larger sum than usual for the study of the control of hog cholera and other animal diseases by the Bureau of Animal Industry of the United States Department of Agriculture whose work is vitally connected with the work of the Veterinary School.

This year marks the entrance of the third class in the four-year course. There will be this year in the school Junior, Sophomore and Freshman classes but no Senior class. The Dean and the trustees are greatly encouraged by the outlook.

The Veterinary School of the George Washington University is the only veterinary school giving lectures after five o'clock that is given official recognition by the American Veterinary Medical Association.

Over seventy per cent of last year's graduates have secured positions with the government in the Bureau of Animal Industry or allied institutions.

Drs. R. A. Kelser and F. H. K. Reynolds of the Class of 1914 are in the service of the H. K. Mulford Company of Philadelphia. This company manufactures vaccine, antitoxin and other serums. Dr. Kelser has been placed in charge of the department which makes serums for the control of rabies, while Dr. Reynolds has been placed in charge of that one where hog cholera serum is made.

Dr. I. M. Cashell, '14, has been appointed as the City Health Officer in Goldsboro, North Carolina.

Drs. Harry R. Getz and C. C. Whitney, 1914, have both resigned government positions and entered the Veterinary School of the University of Pennsylvania. Dr. Getz was located in Chicago while Dr. Whitney was conducting investigations in wild forage plants for the Department of Agriculture in the West.

Many of the class are engaged in private practice in various places.

Dr. S. D. Forbes is practicing in Alexandria, and Dr. Grenfell in this city.

### DENTAL SCHOOL.

Dr. Samuel Danemann, '14, served in the Dental Infirmary during the summer.

Dr. Walter L. Hagen, '14, has been appointed to assist Dr. C. L. Odor in Operative Technics.

Dr. Ira Dow Beebe, '14, is practicing in New England.

## THE MODE

THE CLOTHES THAT COLLEGE MEN LIKE. \$18 TO \$40 ENGLISH CUT AND MODE-MADE

ELEVENTH AND F STREETS

## B. RICH'S SONS

1001 F Street Washington, D. C. Corner 10th

Dr. Bonseigneur, Ginsberg, Golden, Prendergast and Walls, all of the Class of 1914, are practicing in this city.

Circumstances so far seem to indicate that the Dental School will have a very large enrollment this year.

### PROF. FRASER NEW DEAN OF THE LAW SCHOOL

(Continued from page 1)  
SITY HATCHET and is a member of the Pyramid Honor Society. Since graduation he has been associated in the practice of law with the local firm of Britton and Gray. He will teach Contracts and Conflict of Laws.

There have also been made a number of changes in the courses since the catalogue was issued last spring. Courses have been added for this year in Mortgages and Quasi-contracts and the number of hours required for the courses in Agency, Torts, Sales, Bills and Notes and Trusts has been increased. Several of these courses which were three-hour courses for a single half year have been increased to two-hour courses for the full year.

From the advance registration it is believed that there will be a material increase in the attendance again this fall. In every way its semi-centennial year is expected to be a banner year for the Law School.

### THE HATCHET TO BE ISSUED WEEKLY

(Continued from page 1)  
insuring a broad and impartial scope for the editorial board.

The business manager is Julian W. Cunningham who is a member of the junior college class and last year was elected manager of the Track Team although because of the suspension of athletics he managed no team. He had experience under the business manager of last year's HATCHET. He is a member of the Theta Delta Chi fraternity.

THE UNIVERSITY HATCHET is a corporation and has been for eight years. The Board of Managers of the corporation was reorganized last spring and now consists of Dean W. C. Ruediger, Treasurer C. W. Holmes and Secretary Richard Cobb representing the University officials, and W. C. Van Vleck, now Secretary of the Law School, David A. Baer, a local attorney, E. O. Schreiber, an assistant professor in the Law School and one of the vice-presidents of the University Alumni Association and D. L. Dutton who is with the District Engineering Department. These last four men mentioned were elected from among alumni who were either editors or business managers of the HATCHET while students.

The Board of Managers was given complete control and supervision over the management of the HATCHET and will be a permanent body. When vacancies occur the board is to elect its own members, retaining the proportion of four members from the alumni and three from the University officials. This permanent board will elect the editors and business managers with the advice of the outgoing officers. All associate editors and assistant business managers will be considered by the Board of Managers so that the best men are sure to be chosen and all candidates are given an equal chance. This reorganization of the method of control of the HATCHET means that the finances and method of election is taken completely out of the hands of the undergraduates and turned over to members of the faculty and alumni. It is a furtherance of the policy to be pursued in all student activities hereafter, that of graduate control with students actively in charge.

### POSITIONS ON THE HATCHET STAFF NOW OPEN.

(Continued from page 1)  
their work. This is also a new departure this year. The present board believes that one of the factors which mitigated to limit the success of the HATCHET in the past has been that there has been so little to work for. This was true when there were but two executive positions open to competition. There are now four places, three of the editorial, and an opportunity for an even larger number to earn job medals.

It may be added that an editorship or business managership carries with it besides the opportunity for experience, an opportunity for some financial profit. There is also an opportunity for business agents and assistant business managers to earn some commissions.

### FACULTY CHANGES IN ARTS AND SCIENCES

(Continued from page 1)  
It is expected that a course in Italian will be given this year should a sufficient number elect it to warrant forming a class.

The registration in all of the colleges of the Department is in excess of what it was at this time last year. Particularly gratifying is the large increase in the number of full day students in Columbian College.

### MARRIAGE ANNOUNCEMENTS.

Hummer-Kerby. On June 19, 1914, in Chicago, Paul Louis Hummer of Iowa City, Iowa, and Mary Katharine Kerby, Columbian College 1912.  
Van Vleck-Moyer. On July 1, 1914, in Washington, William Cabell Van Vleck, Columbian College 1908, Law School 1911, and Jennie Moyer, Columbian College 1908.

Paul-Zellers. On September 15, 1914, Walter Edwin Paul, Columbian College, and Ruth Marguerite Zellers.  
Miller-Taylor. On July 20, 1914, in Washington, Thomas Miller, Jr., Medical School 1914, and Ouida Taylor.

Klye-Johnston. On June 24, 1914, Albert Klye and Mildred Floyd Johnston, Teachers College 1910.

Cooke-Evans. On July 11, 1914, at Youngstown, Ohio, Parley Merle Cooke, Veterinary School 1914, and Florence E. Evans, Columbian College.

Pozen-Eskin. On September 9, 1914, Morris A. Pozen, Columbian College 1913, and Estelle Eskin.

Brandenburg-Arms. On September 16, 1914, in Washington, Edgar Thomas Brandenburg, formerly of the Law School, and Jessie Orcutt Arms, formerly of Columbian College.

Lepper-Hummer. On June 22, 1914, in Washington, Henry Albert Lepper, Columbian College 1913, and Georgie Hummer.

Davis-Wellis. On August 19, 1914, Carl Lawrence Davis, Medical School 1902, and Sadie Wells.

Titus-Beardsley. On September 23, 1914, in Charleston, West Virginia, Elijah White Titus, Medical School 1910, and Julia Beardsley.

Mapes-Royer. On June 27, 1914, in Washington, Carl Anthony Mapes, Law School, and Edna Claire Royer.

Tilton-Snyder. On September 5, 1914, in Washington, Fletcher Sandford Tilton, Columbian College, and Faith Marie Snyder.

Thompson-Leland. On June 23, 1914, in Washington, Professor Arthur Lee Thompson, Cornell University, and Flo Leland, formerly of Columbian College.

White-Strong. On September 5, 1914, Dr. Charles Stanley White, a graduate of the Medical School, and Blanche Martha Strong.
